Little Heart Boat Dock area closed until further notice

Mandan, N.D. – The Morton County Parks and Recreation Department has closed the Little Heart Boat Dock due to rising water coming over the blacktop. The boat dock has been pulled and the area is closed to any and all traffic.

Parks Director Tim Nilsen does not expect significant impacts from increased water levels at the Graner Park and Fort Rice boat docks, but they are being closely monitored. At this point, those will remain open.

Morton County officials want to thank the public for their cooperation, and we will continue to communicate any further updates.
